$$(1+P_{-5})^{1/5}-1+r$$

Donde "z" es el porcentaje de participación del socio que se separa en el capital pagado total, "$U_{-i}$" es el remanente fiscal anual de ingresos sobre gastos registrado "i" periodos anuales de ejercicio atrás, "$P_{-i}$" es la inflación anual acumulada durante los últimos "i" ejercicios, conforme al Indice Nacional de Precios al Consumidor de México publicado por el Banco de México o su equivalente, y "r" es una tasa real fija de 10% (DIEZ POR CIENTO).

b) En caso de muerte de un socio, la sociedad continuará funcionando con los sobrevivientes, procediéndose a liquidar la aportación que corresponda al socio difunto, para entregarla a sus legítimos herederos o causahabientes, de acuerdo con la fórmula que se establece en el inciso C de esta cláusula. Los herederos o causahabientes tendrán derecho al capital y remanente de operación distribuible que correspondan hasta el momento del fallecimiento del socio en cuestión.

Los herederos de un socio consultor podrán escoger entre que se les entregue la parte correspondiente del capital o cambiar dichas aportaciones para ser socio ordinario con aportaciones de la clase II.

NOVENA. CAPITAL

Para propósito de estos estatutos se entiende por:

Capital social: la suma de las aportaciones máximas que se comprometen a realizar eventualmente los socios en su conjunto.

Capital suscrito: la suma de las aportaciones que se han comprometido a realizar en un periodo determinado los socios. El denominado "capital suscrito inicial" se establecerá en la segunda asamblea de socios que se realice.

El capital social de la sociedad será la cantidad $3'000,000,000.00 (TRES MIL MILLONES DE PESOS M.N.) a prec de septiembre de 1990, que se actualizará automáticamente el Indice Nacional de Precios al Consumidor elaborado por Banco de México o su equivalente, debiendo los socios hac las correspondientes aportaciones suplementarias de acuer a sus respectivos porcentajes, en terminos de lo dispuesto por el artículo dos mil setecientos tres del Código Civil ra el Distrito Federal, y de estos Estatutos. 4.

La sociedad expedirá a los socios los documentos necesari para acreditar su calidad como tales, asi como en su caso recibo correspondiente al importe de sus aportaciones:

El capital suscrito y/o pagado estará formado por dos ti de aportaciones: 5.

1. Las que realicen los socios consultores, que serán cl I.
2. Las que realicen los socios ordinarios, que serán cl II.

DECIMA. AUMENTOS DE CAPITAL

La Asamblea General podrá decretar aumentos de capital, cuales deberán ser suscritos preferentemente por los soci ya existentes, quienes contarán con derecho de prefe cia conforme a las siguientes reglas:

1. Sólo los socios consultores podrán participar aumentos de capital para aportaciones de clase I.

2. En los aumentos de capital de clase II, pod participar tanto socios consultores como ordinarios.

3. Los aumentos de capital podrán ser suscritos de acue con las siguientes reglas:

   i) De clase I. Sólo por los socios consultores, acuerdo con su participación en el capital suscri de clase I.

   ii) De clase II. Por el(los) nuevo(s) socio ordinario(s) y por los socios consultores, en

monto necesario para mantener la participación individual de estos últimos en el capital suscrito total. Los socios consultores podrán renunciar a este derecho cuando su aportación resultante no sea inferior al 2.5% del nuevo capital suscrito.

iii) Simultáneo de clases I y II. Por los socios consultores y ordinarios conforme a su participación en el capital suscrito total (la suma de aquel de clases I y II).

4. En caso de que ningún socio con derecho al tanto en el capital de esa clase quiera suscribir el aumento de capital, éste podrá ser suscrito por cualquier persona que reuna los requisitos necesarios para ser socio ordinario o consultor, según corresponda, y que haya sido aprobado por la Asamblea.

5. Los socios consultores deberán aportar por lo menos 2.5% del capital suscrito de la sociedad. Aquellos socios cuya aportación porcentual inicial sea superior al monto aquí mencionado podrán optar por conservarla cuando ingresen nuevos socios consultores u ordinarios.

Aquellos socios consultores que al establecerse la sociedad liquiden un monto de capital menor al antes estipulado, deberán sujetarse a lo establecido en los incisos A) y B) a continuación:

A) Deberán pagar al momento de hacer la suscripción, por lo menos 1% (UNO POR CIENTO) del capital social.

B) La cantidad restante, es decir la diferencia entre la cantidad pagada y 2.5% del capital suscrito inicial, deberá liquidarse en un periodo máximo de 24 (VEINTICUATRO) meses, al valor inicial en términos reales, de acuerdo con la evolución mensual del Indice Nacional de Precios al Consumidor, más 1% (UNO POR CIENTO) mensual, de acuerdo con la siguiente fórmula:

Liquidación de faltante=(Diferencia) (1+P) (1+0.01)^n

Donde "Diferencia" se refiere al monto resultante de restar el valor de la aportación inicial al

valor correspondiente a 2.5% del capital suscri
inicial, conforme se defina en la primera Asamble
"p" equivale al incremento porcentual acumulado d
Indice Nacional de Precios al Consumidor de Méxic
o su equivalente, publicado por el Banco de Méxi
entre septiembre de 1990 y el mes anterior al q
efectúe la suscripción de dicha referencia. Por
parte, "n" se refiere al número de meses natural
transcurridos entre septiembre de 1990 y aqu
cuando se liquide el faltante.

C) Cuando la sociedad admita un nuevo Socio Consulto
la aportación de capital de éste corresponderá p
lo menos a 2.5% del valor del capital suscri
hasta ese momento. Considerando que el poder
compra de los recursos utilizados para esos efect
se modifica en función de la inflación, l
aportaciones deberán calcularse de acuerdo con
siguiente fórmula:

Aportación del nuevo socio consultor = xk(1+P)

En ésta, "x" significa el porcentaje del capit
suscrito que debe aportar el nuevo socio (cuan
menos 2.5%); "k" es el resultado de aplicar
fórmula siguiente:

$$k = K^{o} / [(K^{o}/K)-x]$$

donde "$K^{o}$" es el valor del capital de los soci
ordinarios suscrito, "K" es el valor del capit
total suscrito y "x" corresponde al concepto ant
citado. Por su parte, "p" es el increment
porcentual acumulado del Indice Nacional de Preci
al Consumidor de México, o su equivalent
publicado por el Banco de México ent
septiembre de 1990 y el mes anterior al que
efectúe la aportación de capital del nuevo soc
consultor.

D) Las fórmulas del inciso anterior permiten que l
socios consultores conserven el porcentaje
aportación del capital suscrito al inicio de l
sociedad, para lo que requieren efectu
aportaciones adicionales cada vez que ingrese
nuevo socio. Cuando alguno de los socio

consultores no desea suscribir esta ampliación de capital, el monto correspondiente podrá distribuirse proporcionalmente entre los demás socios consultores.

6. En la Asamblea el voto de los socios tendrá un peso relativo igual al porcentaje que representa su aportación en el capital suscrito total. El cálculo de dichos porcentajes considerará el valor del capital suscrito por los socios.

7. La sociedad podrá admitir nuevos socios ordinarios. La aportación individual de éstos deberá ser equivalente a cuando menos 1.0% del capital suscrito inicial, en términos reales, conforme la fórmula establecida en el inciso C del punto 5 de esta cláusula, salvo cuando la Asamblea establezca otra disposición.

   En este caso, los socios consultores podrán suscribir la ampliación de capital correspondiente con objeto de preservar sus porcentajes de participación en el capital suscrito. Los socios consultores que tengan 2.5% del capital suscrito deberán suscribir dicha aportación para conservar su calidad de Socio Consultor.
